

## mattress **ARTEMIS BIO**

1. The upper **LATEX** foam rubber layer provides an optimal climate, and thanks to its strong elasticity perfectly follows the shape of the human body.
2. We're not afraid of natural materials, which is why our mattress include firming **COCONUT FIBRE** boards to support high core load.

3. The **MORAVIA COVER**, comprised of exclusive knitted fabric with a high content of natural viscose, is exceptionally soft and pleasantly smooth, which is why we use it for our luxury line mattresses.

4. The **3D GRID** sewn into the cover is in perfect symbiosis with the mattress core to emphasise air circulation. The cover is divisible into two separate parts with a zipper running around the entire perimeter of the cover.

## MATTRESS DESCRIPTION:

**An exclusive core comprising foam rubber (latex) with an admixture of natural rubber, which is double-reinforced and strengthened by the flexible coconut boards in the central layer.**

It is noted for excellent flexibility, air permeability (open cell structure and latex perforation) and antibacterial properties, and due to its characteristic point elasticity perfectly adapts to the curves of the human body to provide guaranteed support in the places where it is most needed. Due to good orthopaedic properties, the mattress is also suitable for bedridden users. ARTEMIS BIO will provide you with comfortable sleeping and relaxation with a touch of nature.

## MORAVIA COVER:

The MORAVIA cover, comprised of exclusive knitted fabric with a high natural viscose content, is exceptionally soft and pleasantly smooth, which is why we use it for our luxury line mattresses. Natural viscose, the basic manufacturing material of which is cellulose extracted from coniferous trees, provides the fabric with necessary air permeability, perfectly carries moisture away and creates an optimum micro-climate for your healthy sleep.

- Composition: 60% polyester, 37% viscose, 2% polyamide, 1% elastane
- The cover is divisible into two separate parts with a zipper running around the entire perimeter of the cover.
- The 3D grid emphasises air circulation outside the mattress.
