## MATTRESS DESCRIPTION:

### A unique mattress with a high-comfort gel-latex layer.

The upper latex mattress layer with an admixture of gel particles provides the optimum climate for your sleep, and its cooling effect is especially well-liked during the hot summer. Thanks to its strong elasticity, it perfectly follows the shape of the human body. The open latex cell structure and double-sided perforation of the core support efficient air circulation and prevent moisture retention. The METIS mattress will become an important part of your life.

## MORAVIA COVER:

The MORAVIA cover, comprised of exclusive knitted fabric with a high natural viscose content, is exceptionally soft and pleasantly smooth, which is why we use it for our luxury line mattresses. Natural viscose, the basic manufacturing material of which is cellulose extracted from coniferous trees, provides the fabric with necessary air permeability, perfectly carries moisture away and creates an optimum micro-climate for your healthy sleep.

- Composition: 60% polyester, 37% viscose, 2% polyamide, 1% elastane
- The cover is divisible into two separate parts with a zipper running around the entire perimeter of the cover.
- The 3D grid emphasises air circulation outside the mattress.
