MATTRESS DESCRIPTION:

A partner mattress with central corrugated moulding that connects without gluing to emphasise the orthopaedic properties of the mattress.

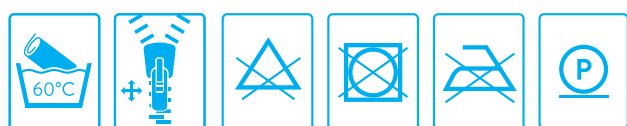

NAVI incorporates KOMFORTAN foams, each of different firmness, to enhance the orthopaedic properties that individually adapt to each part of the body. The high ventilation of the core centre is supported by aeration channels that ensure sufficient air circulation during movement. To ensure maximum bed hygiene, the mattress can be unfolded thanks to the non-adhesive core centre. All this is combined into a functional mattress providing different firmness on each side, along with increased load capacity and height. NAVI is your partner on the sleep journey.

POTAH LUREX:

Simple elegance – this is the LUREX cover. Minimalist design with silver dots. The cover is easy to maintain and clean compared to cotton, is less susceptible to mite reproduction and is also very soft.

- Composition: 97% polyester, 3% polyamide
- The cover is divisible into two separate parts with a zipper running around the entire perimeter of the cover.
- The 3D grid emphasises air circulation outside the mattress.
